

Activity Handout

Activity: Consolidation

Purpose

The purpose of consolidation is to synthesize the wide range of quantitative and qualitative data collected through Step 1 activities into overall areas of LEA strengths and weaknesses. In step 2, the areas of weakness will be prioritized, and 1-2 areas will be selected for a root cause analysis.

Instructions

- 1. Prepare.** The CIM team should prepare to consolidate Step 1 information by watching the [Consolidation Video](#).
- 2. Synthesize.** Synthesize Step 1 findings using an [Affinity Protocol](#):
 - a)** Gather areas of strength from Step 1 activities and group into like categories using the [Affinity Protocol](#) to identify overall areas of LEA strength.
 - b)** Gather areas of weakness from Step 1 activities and group into like categories using the [Affinity Protocol](#) to identify overall areas of LEA weakness.
