

Special Education Monitoring

Parent Input

The California Department of Education, Special Education Division (CDE-SED) annually reviews Local Educational Agency (LEA) performance and compliance data related to implementation of Individuals with Disabilities Education Act (IDEA) requirements in accordance with the IDEA Section 616(e) and Title 34, *Code of Federal Regulations (CFR)* sections 300.600–604, and 34 *CFR* sections 300.646–300.647. The purpose is to ensure that the LEAs, including charter schools, County Offices of Education (COE), and Special Education Local Plan Areas (SELPAs), are providing appropriate supervision and monitoring for special education programs and services.

Parent Survey

The parent survey is designed to provide LEAs and the CDE with information on parents' experience of their child receiving special education services over the past year and how well schools are supporting parents' involvement in this process. Information gathered will be helpful in identifying areas of strength and areas that may need improvement within the school district. The survey is intended for parents or guardians of students from California school districts, involved in the current year monitoring activities. The survey window is open April–May.

We encourage you to complete only one survey per student, per school year. Responses are anonymous, please do not share confidential information in the comments sections.

The information you share is subject to a Public Records Act request, accessible to your local school district, and will not be handled or filed as a formal complaint. To file a formal complaint with CDE, please visit the [CDE SED Complaint Process web page](#) or call the Procedural Safeguards and Referral Services toll-free Help Line at 800-926-0648.

To begin a survey, find your District/Local Educational Agency (LEA) below and select the “Start Survey” button.

If your District/LEA is not on the list, that means it is not currently scheduled for a review or the survey period has passed.
