

CIM Step 1—Gather and Inquire: Parent Input (required for Level 3 or if Indicator 8 is unmet)

Description

Parent Input is a required CIM Step 1 activity for all Targeted Level 3 LEAs. It is also required activity for any Targeted Level 1 or 2 LEA that did not meet the statewide target on Element/Indicator 8—Parent Involvement. The Targeted Review Data sheet linked to the LEA's March 2024 *Annual Determination Letter* will show whether the target for Element/Indicator 8 was met or unmet.

Seeds of Partnership, a third-party vendor appearing on caltan.info, is an option for obtaining parent input. Whichever method of collecting parent input the LEA uses, it must include input from parents of students with special needs.

LEA Required Tasks

Targeted Level 3 LEAs:

- Document completion of the Parent Input activity by entering the required information into the Parent Input box in Stepwell, shown below. Submit to the CDE via Stepwell by **July 10, 2024**.

7) Parent Input

[In this box, enter a Parent Input activity summary that identifies the target group and tools, sources, and/or methodologies used, and also summarizes findings, including participation numbers or rates, trends, new information learned, and areas that need to be addressed.]
